:: SKILLS ::

:: EDUCATION ::

DevLeauge (2018)

A 16 week full stack development bootcamp with coursework including Object Relational Mapping, Authentication and Authorization (bcrypt), Validation, OOP principles, HTTP request/response, REST conventions, API design, and DOM manipulation

University of Hawaii at Manoa (2015-2017)

Bachelors of Arts in Economics

:: ABOUT ME ::

Aloha, I am a Full Stack Developer with a strong interest in front-end web design. My diverse background ranges from the study of economics to high-end customer service. These experiences have enabled me to gain a deeper understanding of a variety of industries and what they strive for when incorporating software development. I thrive in collaborative environments and have a passion for innovation and creating new user experiences.

:: PROJECTS ::

Recip-Easy (React)

An application that keeps track of purchased groceries via scanned barcode or image recognition. Based on items selected in the users virtual fridge, specialized recipes are generated.

<https://recip-easy.com/>

Consume More Stuff (React)

A single page application that allows users to list personal items for sale. Unauthorized users may browse through listed products however, to post an item for sale, a user account is required.
